• Chinese Mandarin: Native

• English: IELTS <u>Band 6.5</u> (7.5/6.5/6.5/5.5)

Japanese: JLPT N2 (working towards business fluency)

VISA ELIGIBILITY

Full-time work permitted via:

UK: HPI (eligible: Peking University)

• Japan: J-Find (eligible: Peking University)

Hong Kong: <u>TTPS</u> (eligible: Xi'an Jiaotong University)

WORK EXPERIENCE

Tencent Backend Software Engineer

Aug 2021 - Aug 2024

- Performed as backend software engineer across infrastructure and business services for QQ.
- Led core modules for QQ including: QQ Account, QQ
 Face Recognition, and QQ Login Notification.
- Contributed to QQ Channels, Status, and Live.
- Awarded Social Product Department "Star" Award.

PROJECT EXPERIENCE

QQ Account System

Jan 2023 - Aug 2024

- A longest-standing system, with massive legacy code and extremely high traffic
- Optimized critical workflows (revocation, recycling, registration etc.); migrated key modules to cloud-native (containerized, streamlined workflows).
- Reduced daily user feedback to single digits;
 long-term stability for 3B+ accounts.

QQ Channels

Jun 2022 - Jan 2023

- Profile service for tens of millions of users; reliable data storage and access at scale.
- High concurrency data access services (single service up to 78K peak QPS, 1.8B daily requests); co-built the generative feeds system with the AI team.

ADDITIONAL EXPERIENCE

Career Break

International Career Preparation

Sep 2024 – Aug 2025

- Undertook a solo backpacking journey across the UK,
 Ireland, HK, and Japan to uncover new work and life.
- Passed IELTS and JLPT N2 certifications.
- Refreshed blockchain knowledge from master's research and stayed with cutting-edge frontiers.
